Valve equations tool for PSAT2004 – determining if the correct version is installed

To determine if you have the correct version of the Valve equations program, start the program (go to Start menu, select the PSAT2004 folder item and then Valve Equations. Once the program is running, do the following:

1. Select the Windows…Show VI Info… menu item (or simply click Ctrl+I), as shown in Figure 1.

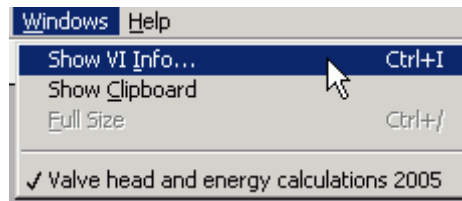

Figure 1. Show VI Info.. menu selection
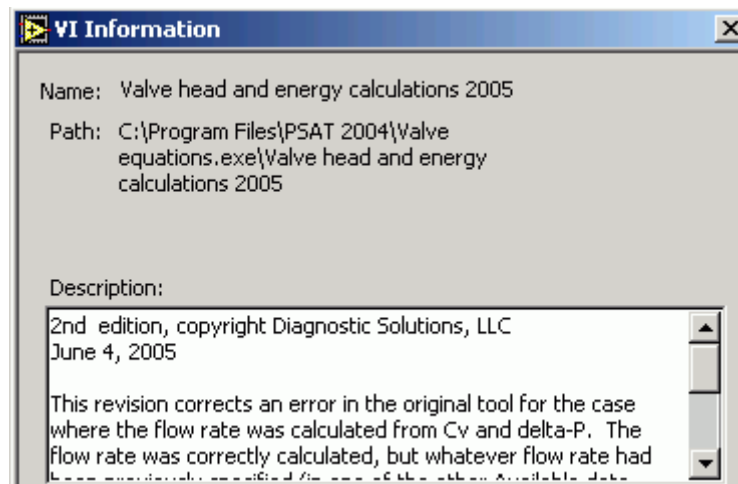

2. The correct version reads as shown in Figure 2.

Figure 2. VI information for the correct version of the valve tool

For the INCORRECT version of the valve tool, the VI Information panel will appear as in Figure 3.
